

Dr. Priya S. Natesh

Senior Assistant Professor, ICFAI School of Architecture, IFHE, Hyderabad

Dr. Priya S. Natesh has been associated with the ICFAI Foundation for Higher Education since 2011. She completed her Ph.D. from IIT Hyderabad in 2025, specializing in structural engineering and fire-resistant design of steel–concrete composite structures. Her research focuses on the “Analysis and Design of Steel–Concrete Composite Structures under Fire Loading” and the “Behaviour of Steel Structures” under earthquake loading. She has published research papers in reputed Scopus and Web of Science indexed journals. She has received Best Paper Awards at international conferences for her research contributions in structural engineering. She has also undertaken an IFHE Seed Money Grant projects and consultancy works.

Area of Interest: Structural Engineering, Steel–Concrete Composite Structures, Structural Fire Engineering, Building Materials and Construction, Structural Analysis.
