

Workshop on Contribution of Women in development of Literature

14th September 2023

ICFAI Law School in Hyderabad recently hosted a Workshop organized by the Center for Gender Studies. The Chief Guest was Honourable Justice M.Sunil Kishore Jaiswal. The aim was to recognise the role of women scholars in the development of Hindi literature. Kicking off with a warm welcome, the event featured poetry recitations and a quiz, drawing enthusiastic participation from both students and faculty members. These activities provided an educational platform for understanding Hindi's role in fostering national pride and unity, beyond just being a language. Hindi serves as a custodian of ancient texts, traditions, and wisdom, acting as a conduit between the past and present generations. Its designation as one of India's official languages under the Constitution is pivotal.
