

Environment Day Report

June 5, 2026

World Environment Day was celebrated on **June 5, 2026**, by the Faculty of ICFAI Tech in collaboration with the Associate Deans and Heads of various Departments. As part of the celebration, faculty members and academic leaders actively participated in a tree-plantation drive across the campus, demonstrating their commitment to environmental sustainability and the creation of a greener, healthier environment.

World Environment Day is a globally recognized event dedicated to raising awareness and inspiring action for the protection and preservation of our planet. It highlights the urgent need to address critical environmental challenges such as climate change, deforestation, pollution, and the loss of biodiversity. The occasion encourages individuals, communities, institutions, and governments worldwide to adopt sustainable practices and contribute towards environmental conservation.

Through activities such as tree planting, environmental clean-up campaigns, and awareness programs, World Environment Day serves as a powerful reminder that the Earth is our shared responsibility. Every small action—whether reducing plastic consumption, conserving water and energy, or supporting green initiatives—plays a significant role in building a sustainable future. The tree-plantation activity organized by ICFAI Tech reflects the institution's dedication to environmental stewardship and its commitment to fostering ecological awareness among students and faculty members for the benefit of future generations.
