Centre for Excellence in IPR

The Centre for Excellence in IPR is a constituent of ICFAI Law School, IFHE, Hyderabad, to promote research and awareness of intellectual property rights. The centre imparts IP education and training to students, academicians and professionals nationwide. The Centre for IPR supports interdisciplinary intellectual property law, science, technology, arts and economics research. The Centre for IPR is looking forward to undertaking research projects on the contemporary issues of importance related to intellectual property rights. The centre provides consultancy services to innovators, creators and entrepreneurs on the filing, registration, protection, management and infringement of intellectual property rights. The centre also regularly organises conferences, seminars and webinars to spread IP awareness among students, academicians and professionals.

About Theme

Sustaining traditional knowledge and harmony in heritage involves a multifaceted approach that acknowledges the significance of preserving cultural practices and wisdom while fostering a balance with contemporary developments. Recognizing and respecting the deep-rooted connections between communities and their traditional knowledge is essential, considering it as a valuable aspect of cultural heritage. This involves documenting and safeguarding traditional practices, rituals, and ecological wisdom, ensuring they are passed down to future generations.

Harmony in heritage preservation also requires collaboration between communities, governments, and organizations to develop sustainable strategies. Integrating traditional knowledge into conservation efforts, land management, and education systems helps maintain a sense of balance between modernization and cultural identity. Supporting initiatives that empower communities to participate in preserving their heritage actively fosters a sense of ownership and ensures the continued relevance of traditional knowledge in contemporary contexts. By acknowledging the interconnectedness of cultural heritage and the environment, societies can work towards creating a harmonious relationship between tradition and progress, promoting the well-being of both the past and the future.
