Vice President, Sustainable Investing,
Northern Trust Asset Management

March 25, 2022

INTRODUCTION

Speaker: Mr. Ankur Gupta

Vice President, Sustainable Investing, Northern Trust Asset Management

Date: March 25, 2022

IcfaiTech Hyderabad hosted an enriching Alumni Talk by Mr. Ankur Gupta, alumnus of the 2003–2007 batch, on the topic “Role of Technology in the Financial Industry.”

He highlighted how modern technologies-particularly machine learning, data analytics, and automation-have become indispensable tools in financial decision-making, mergers and acquisitions, and business growth forecasting.

Mr. Gupta emphasized the increasing impact of data-driven insights in corporate environments and encouraged students to strengthen their analytical abilities and technical skill sets during their academic journey.

The session concluded with an interactive discussion, followed by a felicitation by the Director, Dr. K. L. Narayana, who appreciated the alumnus for his valuable inputs and continued association with the institution.
