

Career Development in Entrepreneurship & Artificial Intelligence

Seminar by
ICFAI Tech:
Alumni : Mr.
Harsh Vardhan
& Mr. Ankur
Srivastava

November 8, 2023

2023

Career Development in Entrepreneurship & Artificial Intelligence.

Speakers: Mr. Harsh Vardhan, MTS Software Development Engineer,
AMD
Mr. Ankur Srivastava, Founder - QiTech & QiMedia

The Alumni Talk Series 2023 brought together two accomplished alumni who delivered a powerful session on “Career Development in Entrepreneurship & Artificial Intelligence.”

The speakers discussed:

1

The rising influence of AI and automation in modern careers

2

How students can prepare for entrepreneurial pathways

3

The importance of technical expertise, coding skills, and adaptability

4

Real-world experiences from the startup ecosystem and global tech industry

Students gained clarity on career planning, skill enhancement, and opportunities within emerging technological fields. The session helped bridge the gap between industry expectations and academic learning.
