

Conserv-A-Thon

Parade for the Planet

Event Date on August 10, 2023

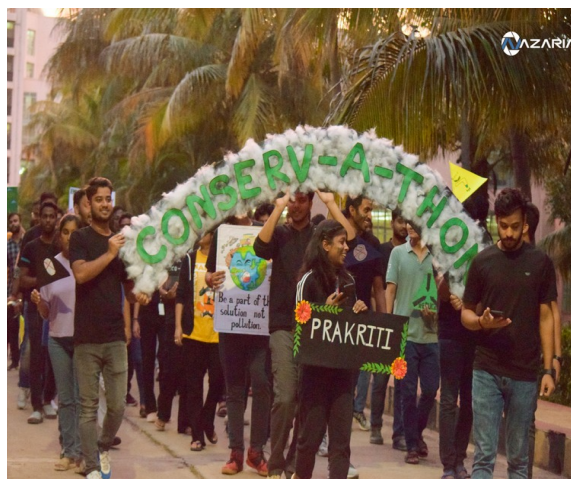

The brilliant minds of Club Prakriti got together and came up with a more than unique idea of a parade.

Taking place all around the MBA campus, starting from the QRS Girls Hostel to the Birthday Point and from there finally ending the show at our very own Courtyard. The students of Club Prakriti made sure that they made each and every head turn when they were on show.

The energy was evident, not only was it infectious within the club itself but to all the students who took part in it. This wasn't like one of those normal parades where the students had to just walk with the team and it was done.

The show went on from QRS to Birthday Point through to ICFAI Tech School and finally ended in the Courtyard. Wherever they went, the camera followed Prakriti it seemed. Not only did they create an electrifying atmosphere while spreading a positive message, they also publicized the club in the best way possible. The chanting of slogans went all over the campus before coming to a halt at the Courtyard.

The parade concluded on a high note with a pledge taken by all the students to be more dutiful citizens of the nation, to protect our mother Earth.

Name of Faculty: *Dr. Sudeepta Pradhan*

Number of Students participated: 120
