

Earth it out Online Poster Challenge for a Greener Tomorrow

Online Event Date April 22, 2023

Earth Day is an annual celebration that honors the environmental movement's achievements and raises awareness of the need to protect the Earth's natural resources for future generations. To mark this occasion, we organized an online poster making competition where various clubs participated by making a poster on the theme Earth Day (Environmental Awareness). The posters submitted by various clubs were judged on two criteria:

1. *On the basis of creativity*
2. *On the basis of popularity where the posters were posted over our Instagram handle and the poster with most likes and comments won.*
