

Snake-o-Pedia: Demystifying Serpents Through Awareness and Conservation

*On a vibrant evening of **November 28th, 2023**, Club Prakriti ventured into the captivating world of Snake-o-Pedia, an educational and thrilling event dedicated to exploring the fascinating realm of snakes. The Seminar Hall filled with participants, including organizers, embarked on this captivating journey, eager to unravel the mysteries and marvels about the misunderstood creatures.*

The event commenced with an engaging seminar led by the members of Friends of Snakes Society, offering insights into the biology, behavior, and conservation efforts related to various snake species. Participants were captivated by the informative sessions, fostering a deeper understanding and appreciation for these enigmatic creatures.

The highlight of Snake-o-Pedia was the live snake exhibition, where participants had the unique opportunity to observe and interact with a variety of non-venomous snake species, guided by experienced handlers. This experience allowed members to overcome fears, debunk myths, and appreciate the importance of snake conservation.

The Snake-o-pedia event has not only broadened the horizons of members but has also left an indelible mark on their understanding of and respect for the mesmerizing world of snakes. The memories forged during this event will undoubtedly serve as a foundation for future environmental initiatives and explorations.
