

Walking with Nature

An Ecological Journey with Rama Lakshmi Peri

*On a pleasant day, **July 30, 2023**, A computer sciences graduate and an MBA by qualification, Rama Lakshmi Peri, co-founded Careers360, an Edtech company and India's most considerable higher-ed information and discovery platform visited by about 15 lac students every day. She also worked as a researcher on multiple projects across publications, especially in the Travel segment. She is very active on environmental, ecology and nature issues. A nature and bird watcher, she is passionate about nature and conducts awareness walks focusing on the importance of native flora. We had a small interaction with Ma'am before visiting the entire campus. The much-anticipated visit promised a valuable opportunity for students to gain insights and learn about the significance of nature in our lives. As the day unfolded, enthusiastic students gathered to embark on a memorable journey, walking alongside Rama Lakshmi Peri and exploring the enchanting campus with its diverse flora and fauna. All the participants as well as faculty members gathered near the circle Infront of the Academic block at the designated time, from there the walk began, passing from B. Tech to G block than from birthday point to the Law block during this walk ma'am introduced variety of plant species including native tree, shrubs and flowering plants. Then participants were headed to the mango tree yard where ma'am showed participants birds nest and she also showed them an Elaeocarpus ganitrus. We have also visited a nursery, even their ma'am introduced some saplings to the participants. The nature walk centered around trees proved to be an enlightening and enriching experience for all participants. As we walked among it silently contribute to our well-being.*

Ms. Rama Lakshmi Peri

Name of Faculty: *Dr. Sudeepta Pradhan*

Number of Students participated: *20*
