The Centre for Excellence in IPR is a constituent of ICFAI Law School, IFHE, Hyderabad to promote research and awareness in the field of intellectual property rights. The centre is dedicated to impart IP education and training to students, academicians and professionals across the country. The centre for IPR is established to promote interdisciplinary research in the area of intellectual property law, science, technology, arts and economics. The centre for IPR is looking forward to undertake research projects on the contemporary issues of importance related to intellectual property rights. The centre provides consultancy services to the innovator, creators and entrepreneurs on the filing, registration, protection, management and infringement of intellectual property rights. The centre also regularly organises conferences, seminars and webinars to spread IP awareness among the students, academicians and professionals.

IP and technology are closely intertwined. In the present era of technology, the intellectual property rights played a pivotal role in the protection and promotion of newly developed research and innovation. The intellectual property protection incentivize the individuals and organizations for their contribution in the research and development, leading to technological advancements while striking a balance between monopoly rights versus public interest. The object of this conference is to invite various academicians, scholars and students to contribute their research on the theme of IPR and its intervention with different kind of technologies such as agrotechnology, biotechnology, nanotechnology and Artificial Intelligence and discuss the contemporary issues concerning intellectual property and technology.

ICRISAT is an International public research organisation involved in agricultural research working towards sustainable development and improvement of the livelihoods of smallholder farmers in the semi-arid tropics. ICRISAT is recognised as a WIPO – Technology Innovation Support Center (TISC) and through the Intellectual Property Facilitation Cell (IPFC) at ICRISAT, stakeholders in the Innovation ecosystem are assisted with IP awareness, IP Assistance and IP management initiatives. ICRISAT and its departments work closely with national and international partners, including governments, research institutions, non-governmental organizations, and other public organisations, to develop and promote innovative interventions for the benefit of smallholder farmers and rural communities.
